

Example of Major Accident Hazard (MAH) listing – Fixed Installation

General Hazard Category	Specific Hazard	Subdivision
Product Containment Failure	Process	Wellhead Production Manifold and Flowlines
		HP Separator
		LP Separator
		Test Separator
		MOL Pumps and Metering
		Gas Lift Manifold and Flowlines
	Flare	Non-ignition
		Carryover
	Wells Operations (Including Blowouts)	Routine Operations
		Non-routine Operations
	Risers and Pipelines	Import/Export Risers
		Gas Lift Lines
		Methanol Risers
		Pig Launchers
	Utilities	Diesel
		Heli fuel
		Methanol
Non-hydrocarbon Containment Failure	Non-hydrocarbon Hazardous Materials Release	Chemicals
Other Hazards	Accommodation Fire	
	Electrical	Fire
		Explosion
Impacts	Helicopters and Aircraft	
	Dropped Objects and Swinging Loads	Cranes
		Drilling Rig
		Lifting Beams, Hoists, Overhead Trolleys etc.
	Ship Collision	Attendant Vessels
		Passing Vessels
	Mechanical Failure	Pressure Vessels
		Pumps
		Compressors
		Generator Turbines
Natural Occurrences	Seismic Events	
	Subsidence	Subsidence
	Extreme Weather	High Winds
		Large Waves
